

Kensington with Den

Our Kensington ranch design features 3 bedrooms, 2 1/2 baths and 2,464 square feet of living space. This version features a library/den.

The heart of the home is the oversized great room which features a 10 foot ceiling. You'll love the cozy charm of the clean burning gas fireplace.

The kitchen and adjacent dinette are open to the great room and are great for informal gatherings. You'll love the grandeur and convenience of the large kitchen island.

The formal dining room is accented by a dramatic 10 foot ceiling.

The oversized master suite is a true "owners retreat". You'll love the glamour tub, dual vanities and his-and-hers walk-in closets.

The library/den offers you the flexibility of being able to also serve as a 4th bedroom.

Optional 3 car garage is shown.

Like all 20th Century designs, this home is customizable to meet your specific needs.
